PROFESSIONAL SUMMARY

I am an Artificial Intelligence and Data Science student at IIT Jodhpur with a strong foundation in data analytics, machine learning, statistical analysis, and problem-solving. Through internships with Tata Group, British Airways, and Tata Consultancy Services, I have gained hands-on experience in AI-powered data analysis, predictive modeling, business intelligence, and cybersecurity. I am passionate about building innovative technology solutions, leveraging data-driven insights, and applying Artificial Intelligence to solve real-world challenges. My experience includes developing impactful projects, participating in national-level hackathons, and collaborating effectively in team environments.

SKILLS

- Artificial Intelligence
- Data Science
- Data Analytics
- Machine Learning
- Data Visualization
- Python
- Generative AI Tools
- Problem Solving
- Strategic Planning

EDUCATION

Bachelor of Science in Artificial Intelligence and Data Science

Indian Institute of Technology
Jodhpur, Jodhpur, India
Expected: August 2028

Relevant Coursework:

- Linear Algebra
- Statistics and Probability
- Data Analytics
- Algorithmic Thinking
- Numerical Optimization
- Foundations of AI
- Data Visualization
- Generative AI
- Software Development

PERSONAL DETAILS

Date of Birth : 24/12/2005
Nationality : Indian
Marital Status : Single

PROFESSIONAL EXPERIENCE

- July 2025 – July 2025** **Data Analyst Intern – Tata Group (Tata iQ)**
Tata Group (Tata iQ) | Remote
 - Performed AI-powered exploratory data analysis, assessed data quality using GenAI tools, identified risk indicators, and proposed predictive modeling solutions for high-risk customer detection.
- July 2025 – July 2025** **Cybersecurity Analyst Intern – Tata Consultancy Services (TCS)**
Tata Consultancy Services (TCS) | Remote
 - Implemented identity and access management (IAM) strategies for secure user lifecycle control.
 - Applied enterprise cybersecurity best practices aligned with business requirements.
 - Prepared technical documentation and presentations for stakeholders, improving communication between technical and non-technical teams.
- July 2025 – July 2025** **Data Science Intern – British Airways**
British Airways | Remote
 - Analyzed customer review data to extract insights into purchasing behavior.
 - Built predictive models to identify factors influencing customer decisions.
 - Aligned analytical insights with business goals and customer satisfaction.

PROJECTS

Sahayak AI – Intelligent Education Platform

- Developed an AI-powered platform connecting students, teachers, parents, and administrators.
- Integrated attendance tracking, AI lesson planning, assessment generation, and communication tools.
- Designed scalable dashboards and user management workflows.

Data Analytics & Machine Learning Projects

- Built predictive analytics models using Python.
- Developed interactive data visualization dashboards.
- Performed statistical analysis and business intelligence reporting.

TECHNICAL SKILLS

Programming : Python
AI & Data Science : Machine Learning, Data Analytics, Predictive Modeling, Generative AI
Data Tools : Data Visualization, Statistical Analysis, Business Intelligence
Core Skills : Problem Solving, Critical Thinking, Strategic Planning, Team Collaboration

ACHIEVEMENTS

- 3rd Prize Winner – EdTech Hackathon
- Participated in National-Level AI & Technology Hackathons
- Completed Industry Simulation Programs from Tata Group, TCS & British Airways
